#### 3. QUALIFICATION, ACCEPTANCE, REJECTION OF BID:

- a. Required Bidder Qualifications to Purchase Project:
  - i. It is the objective of the Department's multifamily foreclosure process to transform troubled and distressed multifamily properties into viable, long-term affordable rental housing resources. To accomplish this objective, the Department will only award a HUD-foreclosed property to a High Bidder that has the financial capacity and demonstrated experience (approximately five (5) years) of successfully owning, managing and transforming distressed and troubled multifamily properties as viable, low-income housing resources.
  - ii. The Department has the discretion to evaluate, starting with the High Bidder and proceeding in descending order, if necessary, the bidder's experience, qualifications and capacity to purchase the Project based on a review of the documentation described below, information independently obtained and verified by HUD, and the Post-Bid Document Submittals required herein. The documentation must demonstrate that the bidder owns (or has owned) and is successfully managing and operating (or has successfully managed and operated) properties of similar size and characteristics (including problematic complexities) as the Project being sold.   - iv. Based on HUD's review of the documentation submitted, as well as any additional information independently obtained and verified by the Department, HUD will determine whether the bidder has the requisite experience, qualifications and financial capacity to purchase the Project. This determination is within HUD's sole and absolute discretion. If HUD determines that the bidder does not have the experience, qualifications and/or financial capacity to purchase the Project, HUD will reject the bid and proceed to the next highest bidder pursuant to the terms of the Invitation.
  - v. In the event that HUD rejects a bid, HUD will return the bidder's earnest money deposit, provided the bidder has not failed to meet time limits required to submit and ensure receipt of documentation, or made any misrepresentation or material omission(s) in the bidder's submission of documentation. If the bidder fails to properly submit and ensure receipt of all required documentation within the

- required time limit or HUD determines that the bidder misrepresented his or her experience, qualifications, or financial capacity, the Earnest Money Deposit will be forfeited and retained as liquidated damages. HUD may seek any and all additional remedies.
- vi. HUD may require the High Bidder to obtain the services of a qualified multifamily project management firm. Management acceptable to HUD (see paragraph 5 below) must be approved prior to Closing.

### b. Bidder Approval:

- i. If HUD determines that the High Bidder is qualified, the High Bidder will be confirmed as and identified as the Purchaser;
- ii. If the high bid is rejected due to HUD's determination that the High Bidder is not qualified to purchase the Project, HUD will notify the High Bidder in writing;
- iii. If HUD rejects the High Bidder, HUD may in its sole discretion elect to contact the Second High Bidder, and/or succeeding bidders as bidders withdraw or do not qualify, to purchase the Project. If contacted by HUD, the Second High bidder or succeeding bidder will be offered the opportunity to purchase the Project and will be given twenty-four (24) hours to submit the earnest money deposit and execute the Acknowledgment, and thereby will be deemed as the High Bidder. HUD will review the bidder's Post-Bid Document Submittals, which must be submitted within the same timeframes detailed in Section 4 of this Invitation beginning from the date the Acknowledgment is executed, in order to determine if the bidder is qualified to purchase the Project;
- iv. HUD's notification of rejection due to lack of qualifications, if applicable, shall be deemed to be given when mailed to the individual that executed the Acknowledgment; and
- v. The written rejection of the bid will be made as promptly as possible and generally within thirty (30) days after the date of the Foreclosure Sale.

Immediately following the Foreclosure Sale the Earnest Money Deposit will be returned to all but the High Bidder. Interest will not be paid on Earnest Money Deposits.

  - b. If the bid amount is unacceptable, the bidder's Earnest Money Deposit will be refunded.
  - c. If, during the review of the High Bidder, it is found that the High Bidder has made any misrepresentation or material omission(s) in the bidder's submission of documentation, the Earnest Money Deposit will be forfeited.
  - d. If the High Bidder is determined not to be qualified to purchase the Project **and** the High Bidder has complied with the requirements of this Invitation the Earnest Money Deposit will be refunded.
  - e. If the High Bidder has failed to comply with the provisions outlined in this Invitation, the Earnest Money Deposit will be forfeited.
- 5. **REVIEW OF PROJECT MANAGEMENT:** HUD will review the statements and Post-Bid Document Submittals to determine, in its sole discretion, if the proposed management entity has the necessary qualifications to operate, manage, and/or administer the type and nature of the project being offered for sale. HUD may elect to discuss Project management plans after submission of the Post-Bid Document Submittals by the High Bidder. HUD reserves the right to reject the bid of any bidder and <u>retain the Earnest Money Deposit</u>, if the High Bidder does not provide management acceptable to HUD.
- 6. **CLOSING DATE REQUIREMENT**: The date and place for Closing will be determined by HUD and the Foreclosure Commissioner and occur within the time period specified in the Acknowledgment, (Attachment B).

  - b. Maintain full occupancy to the greatest extent possible,
  - c. Be maintained as rental housing for the term of this Agreement,

The availability of any remedy under the Agreement shall not preclude the exercise of any other remedy available under any provision of the law, nor shall any action taken in the exercise of any remedy be considered a waiver of any other rights or remedies. Failure to exercise any right or remedy shall not be construed as a waiver of the right to exercise that or any other right or remedy at any time.

- 2. If HUD cashes the Grantee's LOC, HUD may apply the funds to perform the Inspect and Remediate Requirements, retain the funds as liquidated damages, or for such other project purposes as HUD deems appropriate.
- 3. HUD shall not exercise its available remedies if any lender holding a lien or security interest on the Project:
  - a. Gives written notice to HUD within the period provided for repairs, that it intends to complete the Inspect and Remediate Requirements, and
  - b. Completes the Inspect and Remediate Requirements within thirty (30) calendar days of the notice or within such extended period that HUD may approve in writing.

#### **Demolition:**

1. DEMOLITION WHERE LEAD-BASED PAINT MAY BE PRESENT. Grantee agrees to test for lead-based paint prior to any demolition and to apply the EPA Toxicity Characteristic Leaching Procedure (TCLP) to those architectural components with leaded paint to determine if they must be disposed of as hazardous waste under the provisions of EPA's Resource Conservation and Recovery Act (RECRA). The latest revision of those EPA regulations, sometimes referred to as the "toxic characteristic (TC) rules", shall be applied to determine if the waste generated will be classified hazardous waste. The latest information

on the "TC Rules" is available by contacting EPA, RECRA Section, at (800) 424-9346. The routine application of the "TC rules" could document that the project will contain no hazardous waste for disposal. Grantee agrees to comply with all applicable EPA regulations pertaining to hazardous waste disposal in effect at the time of demolition.

- 2. DEMOLITION WHERE ASBESTOS-CONTAINING-MATERIALS (ACMs) MAY BE PRESENT. Grantee agrees to test for and remove all asbestos containing materials prior to any demolition. EPA's Clean Air Act requires that each ACM be removed and disposed of properly before demolition activities commence. Grantee agrees to comply with all applicable EPA, state, OSHA regulations concerning ACM removal.
- 3. DEMOLITION WHERE PCB TRANSFORMERS MAY BE PRESENT. Where there are visibly obvious electrical transformers serving the project to be demolished, that may contain dielectric oil which is contaminated with polychlorinated biphenyls (PCB), the owner shall contact the local utility. A PCB transformer is any transformer with at least 500 PPM PCB content. Grantee agrees to notify the local utility of intentions to demolish the structure(s) and request EPA regulations (40 CFR, Part 761) be applied by the utility as electrical transformers are removed from service at the site as a part of the demolition process.
- 4. DEMOLITION WHERE CFCS MAY BE PRESENT. Grantee agrees to apply EPA regulations in section 608, Clean Air Act, 1990, which require the capturing and recycling of the refrigerant (latest revision). Grantee agrees to have chlorofluorocarbons (CFCs) contractually purged and captured from any and all air conditioning (AC) units present on the site before commencing demolition activities.
- 5. DEMOLITION WHERE HARMFUL CHEMICAL HAZARDS MAY BE PRESENT. Grantee covenants that any potential Harmful Chemical Hazards will be remediated in accordance with applicable federal, state, and local laws, regulatory standards and guidelines, including without limitation the Environmental Protection Agency (EPA) Guidelines.

**Relocation:** If temporary or permanent relocation is necessary because of repairs and/or inspect and remediation required under this provision, Grantee covenants to comply with the Relocation provision of this Use Agreement.

By initialing	hereunder	the parties	acknowledge	that this	Rider is	s incorporated	into and i	is part	of the	Use
Agreement.

#### PROTECTING TENANTS AT FORECLOSURE ACT OF 2009

#### Applicable to all foreclosure sales

In the case of foreclosure involving any multifamily residential dwelling, the purchaser at foreclosure shall be subject to the following:

- 1. Any bona fide tenant occupying a unit as of the date of the notice of foreclosure must be given 90 calendar days prior notice to vacate the unit; and
- 2. Any tenant retains all of its rights as of the date of the notice of foreclosure. These rights include:
  - (A) Any tenant who, on or after the date of the notice of foreclosure, is under a lease agreement entitling the tenant to occupy the premises until the end of the remaining term of the lease, will continue to maintain his/her rights under the lease agreement, except that a purchaser at foreclosure who will occupy a unit as a primary residence may, terminate a tenant's lease for that unit, effective on the date of sale, by issuing notice of the termination of tenancy to the tenant at least 90 calendar days prior to the effective date of the notice.
  - (B) Any tenant who is a tenant at will under state law or occupies the unit without a lease retains all of its rights regarding occupancy of the unit, except such tenant may be required by a purchaser at foreclosure to vacate the unit provided that the tenant is given 90 calendar days prior notice by the purchaser at foreclosure.
  - (C) Nothing contained in paragraphs 1 and 2 herein shall affect the requirements for termination of any federal or state subsidized tenancy or of any state or local law that provides longer time periods or additional protections for tenants, those rights will be retained by the tenant.
- 3. If the tenant holds a Section 8 voucher and has a lease agreement, the purchaser at foreclosure may terminate the tenancy effective as of the date of the transfer of ownership to the purchaser if (1) the purchaser will occupy the unit as a primary residence and (2) provides the tenant with a notice to vacate at least 90 calendar days before the effective date of the notice.

#### Attachment K - 24 CFR Part 5

# § 5.703 Physical condition standards for HUD housing that is decent, safe, sanitary and in good repair (DSS/GR).

These standards address the major areas of the HUD housing: the site; the building exterior; the building systems; the dwelling units; the common areas; and health and safety considerations.

- (a) Site. The site components, such as fencing and retaining walls, grounds, lighting, mailboxes/project signs, parking lots/driveways, play areas and equipment, refuse disposal, roads, storm drainage and walkways must be free of health and safety hazards and be in good repair. The site must not be subject to material adverse conditions, such as abandoned vehicles, dangerous walks or steps, poor drainage, septic tank back-ups, sewer hazards, excess accumulations of trash, vermin or rodent infestation or fire hazards.
- (b) *Building exterior*. Each building on the site must be structurally sound, secure, habitable, and in good repair. Each building's doors, fire escapes, foundations, lighting, roofs, walls, and windows, where applicable, must be free of health and safety hazards, operable, and in good repair.
- (c) *Building systems*. Each building's domestic water, electrical system, elevators, emergency power, fire protection, HVAC, and sanitary system must be free of health and safety hazards, functionally adequate, operable, and in good repair.
- (d) Dwelling units.
  - (1) Each dwelling unit within a building must be structurally sound, habitable, and in good repair. All areas and aspects of the dwelling unit (for example, the unit's bathroom, call-for-aid (if applicable), ceiling, doors, electrical systems, floors, hot water heater, HVAC (where individual units are provided), kitchen, lighting, outlets/switches, patio/porch/balcony, smoke detectors, stairs, walls, and windows) must be free of health and safety hazards, functionally adequate, operable, and in good repair.
  - (2) Where applicable, the dwelling unit must have hot and cold running water, including an adequate source of potable water (note for example that single room occupancy units need not contain water facilities).
  - (3) If the dwelling unit includes its own sanitary facility, it must be in proper operating condition, usable in privacy, and adequate for personal hygiene and the disposal of human waste.
  - (4) The dwelling unit must include at least one battery-operated or hardwired smoke detector, in proper working condition, on each level of the unit.
- (e) Common areas. The common areas must be structurally sound, secure, and functionally adequate for the purposes intended. The basement/garage/carport, restrooms, closets, utility, mechanical, community rooms, day care, halls/corridors, stairs, kitchens, laundry rooms, office, porch, patio, balcony, and trash collection areas, if applicable, must be free of health and safety hazards, operable, and in good repair. All common area ceilings, doors, floors, HVAC, lighting, outlets/switches, smoke detectors, stairs, walls, and windows, to the extent applicable, must be free of health and safety hazards, operable, and in good repair. These standards for common areas apply, to a varying extent, to all HUD housing, but will be particularly relevant to congregate housing, independent group homes/residences, and single room occupancy units, in which the individual dwelling units (sleeping areas) do not contain kitchen and/or bathroom facilities.
- (f) Health and safety concerns. All areas and components of the housing must be free of health and safety hazards. These areas include, but are not limited to, air quality, electrical hazards, elevators, emergency/fire exits, flammable materials, garbage and debris, handrail hazards, infestation, and lead-based paint. For example, the buildings must have fire exits that are not blocked and have hand rails that are undamaged and have no other observable deficiencies. The housing must have no evidence of infestation by rats, mice, or other vermin, or garbage and debris. The housing must have no evidence of electrical hazards, natural hazards, or fire hazards. The dwelling units and common areas must have proper ventilation and be free of mold, odor (e.g., propane, natural gas, methane gas), or other observable deficiencies. The housing must comply with all requirements related to the evaluation and reduction of lead-based paint hazards and have available proper certifications of such (see 24 CFR part 35).
- (g) Compliance with state and local codes. The physical condition standards in this section do not supersede or preempt state and local codes for building and maintenance with which HUD housing must comply. HUD housing must continue to adhere to these codes.
